Getting started in five minutes

1. **Open:** open the studio link in Chrome, Edge or Safari. On a phone, use Add to Home screen to keep it like an app.
2. **Look round:** without a key you can see every screen of the sample project. Change the university format and the citation style to see the results.
3. **Key:** tap Buy a key, choose a plan (3 months ₹109, 1 year ₹399, ₹33 for each extra device), pay by UPI and give the UTR number. Paste the key you receive under **Projects** → **Licence key**.
4. **Project: Projects** → **New project**: the title, the discipline (English Literature or Mass Communication) and the type of work. In **Settings**, choose your university format and citation style.
5. **Proposal:** work through **Proposal** → **Steps and guidance**; take the proposal document as a Word file.
6. **Chapters:** set up the chapters on **Chapters** → **Writing page**. Use **Add a citation** for citations, and **Import** for a Word file you wrote earlier.
7. **Sources:** keep sources and reading notes in **Sources and notes**; a DOI or ISBN fetches the details.
8. **Checks:** fix the Must fix items in **Checks** first.
9. **Supervisor: Supervisor** → **Save review file** and send it; when comments come back, **Open comments file**.
10. **Submit:** in **Submit**, take the Word file of the whole work or the chapter-wise files for Shodhganga.

> **Take care**
>
> Your work stays on this device. Take a backup at least once a week with **Projects** → **Back up this project (.json)** and keep it off the device. On a computer that others use, lock the project.
